

The Town of Signal Mountain wants your input!

Signal Mountain is in the process of developing a bicycle and pedestrian plan. This plan will identify the town's existing bicycle and pedestrian infrastructure, and make recommendations about where and how that infrastructure can be improved. The involvement of citizens who walk, bike, and drive in the town everyday is crucial for creating a plan that works.

There are two ways you can participate in this planning process.

- Take the Signal Mountain bike and pedestrian survey, located at: https://www.surveymonkey.com/r/SignalMtn_bike_ped. The survey has 18 questions, and should take around 15 minutes to complete.
- Attend a drop-in open house on **Monday, October 30th from 5-7 PM at Town Hall, 1111 Ridgeway Avenue**. The open house will give citizens the opportunity to view and provide comments on different elements of the plan.

Thank you for taking the time to provide your feedback. Signal Mountain is a wonderful place to live, and planning for bicycle and pedestrian infrastructure can make it even better.
