

# **TAKE ME HOME**

**The Town is pleased to announce that the Take Me Home program is now available to our citizens.**

Take Me Home is a database program developed for people who may need special assistance if they are alone or in times of emergency. This kind of assistance may be required if the person is unable to speak or properly identify themselves, or if they become disoriented or act in a manner that could be misinterpreted by first responders. The program allows participants to submit a current digital photograph, demographic information and caregiver contacts. If a police officer encounters a person who is registered in the Take Me Home system, the officer can query the system, searching by name or by the person's physical description. Once the individual's Take Me Home record has been located, the officer will have the information necessary to provide the appropriate level of assistance.
