

Council Notes-February 5, 2014

For questions or information, contact the Town Hall at 886-2177 or council members at signalmountaintn.gov.

- At its January 29 work session, the council reviewed updates to the Vehicle Replacement Plan and the need to increase departmental contributions to the plan; an evaluation of maintenance and repairs necessary for town facilities now and in the future; a final accounting of the Fall Hodgepodge that resulted in a unanimous vote to require an outside event promoter for future events; a MACC grant application for building improvements (especially the sprinkler system) of \$327,500 that includes a \$131,000 match from the town; an update from Lew Waddey on the Library Foundation's quest to become a 501-3(c) in order to raise money to pay for renovations to the basement; and a pending Fire Station Feasibility Report that will provide recommendations relative to the need for a fire sub-station on Shackleford Ridge.
- George Derryberry's book talk has been rescheduled to Thursday, February 20, at 6pm at the Library.
- The Public Works Department regrets being behind in leaf pickup. Normally, the final round of collection is completed by mid-January; however, this season fall rains and freezing winter temperatures have hampered the process. The council asks citizens to please be patient.
- The town has openings on the Board of Zoning Appeals, the Personnel Committee, and the Board of Adjustments and Appeals. Applications may be downloaded from the town website. For more information contact Interim Town Manager Boyd Veal.
- The Recycle Center cannot accept Styrofoam. Please deliver it to the Transfer Station for disposal or to the UPS Store at the foot of the mountain for reuse.
- Garbage services, including backdoor, require that containers be ready for pickup by 7:30 am. Please place garbage containers out on time.
