

## Council Notes-May 14, 2014

For questions or information, contact the Town Hall at 886-2177 or council members at [signalmountaintn.gov](http://signalmountaintn.gov).

- The Recreation Department is welcoming improvements at the Town Hall Complex this summer: a new NEX-GEN salt water purification system at the pool, new playground equipment, and a Memorial Day Celebration.
- The NEX-GEN pool purification system is a fully automatic, in-house system that produces chlorine by electrically charging salt. The ph neutral system offers not only benefits to swimmers—it is easy on the eyes and it softens the skin—but it is safer for pool employees who will no longer have to work with hazardous chemicals. The system is projected to pay for itself in only five years.
- The council thanks to Robert Barron of GameTime for helping the Recreation Department secure a grant for new playground equipment it has purchased through the U.S. Communities Purchasing Co-op. The playground at the Town Hall Complex will be a go-to place this season!
- The Town Pool will open on Saturday, May 24. On Memorial Day, Monday, May 26, a D-jay will be on hand and special events will be held such as a splash contest, a hula contest, and more. Come to the pool and enjoy the fun!
- Registration for the summer reading program at the Library begins Tuesday, May 27 at 11am. The program and special events will take place throughout the months of June and July.
- Beat the rush and purchase season tickets, resident cards, or sign up for June summer camps at the Town Hall. Resident cards are required to enter the pool.
- Town offices and the Transfer Station will be closed on Memorial Day, Monday, May 26. Monday trash pickup that day is rescheduled to Tuesday, May 27.
